Ermine, a domestic cat sejant guardant, queue-forchy, collared and chained sable, within an orle purpure

Her previous submission, *Argent, a domestic cat sejant guardant queu-forchy collared and chained sable, a bordure purpure*, was returned at Kingdom November 2012. It conflicted with the device of Brita the Tormented (reg. 01/1992 via the East), *Argent, a cat sejant reguardant sable within a bordure purpure semy of gauntlets argent*. There is one DC for the tertiaries. There is none for the number of tails, the head posture, or the maintained collar and chains.
We believe that this submission fixes this conflict.
